WINDOW WORLD

Featuring THERMA-TRU® DOORS

Window World®

"Simply the Best for Less"

WINDOW WORLD
A different way.

Welcome

Welcome to the Window World Family.

Window World Tops National Remodeling Rankings.

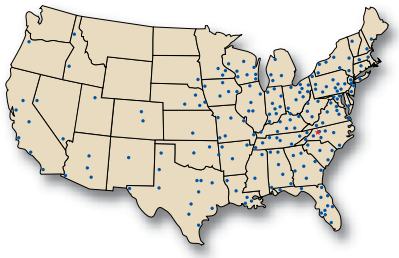
Our Story.

It all began in 1995 with the unique vision and energetic passion of one man with a dream – to develop a home improvement company with a moral compass like no other.

He would offer only the finest quality products with distinction and integrity – and do so at the lowest possible price. Quite simply, the best for less.

He set out to break the mold and change the remodeling industry. And did he ever.

Today, we are America's Largest Replacement Window Company. We are proud to offer beautiful, world-class products from industry-leading manufacturers of windows, siding and other professional-grade exterior building products. Our manufacturing partners demonstrate a proven record for superior craftsmanship, enduring quality and genuine value. Our combined professionalism and expertise are further assurance Window World is an excellent selection for your home.



We also take pride in our companywide commitment to customer happiness. From start to finish, our knowledgeable and friendly teams provide you with the exceptional customer care and attention to detail you can expect from the Window World brand.

Window World Named Number One Window Company in the Country.

Window World has been ranked the number one replacement window company in the United States by Qualified Remodeler in its 'Top 500' and the number one replacement contractor nationwide in Remodeling Magazine's 'Remodeling 550'.

Our Promise.

We do our best on every job, every day, because at Window World we trust that a great job today will bring referrals from family, friends and neighbors tomorrow.

Our promise to you is straightforward: superior products, professionally installed at a guaranteed low price – *simply the best for less.*® Welcome to Window World.

What Makes a Window World Door Different?

When remodeling your home, be sure to consider the impact you can make with a new entry door. Nothing makes a great first impression on your neighbors, friends, and family like an attractive entryway—it is truly the focal point of your home's exterior.

Window World has partnered with Therma-Tru® to offer you a wide selection of the most popular doors available today with some incredible added features. Year after year building professionals rank the Therma-Tru® brand as the one they use most and recognize.

Window World doors offer beauty, durability, security, and are tested to the industry's highest standards. Our broad offering of door styles combined with a wide array of paint, stain, glass and hardware options ensures that every homeowner will find an entry door to satisfy their own personal style.

Like all Window World products, our entry doors provide unsurpassed quality and value, and are backed by an industry leading warranty.

The Window World Difference

1

Therma-Tru® Tru-Defense® System STANDARD and Tru-Defense® Warranty Rider on all fiberglass doors.

2

Dura-Frame Rot Proof Jamb and Brickmould STANDARD.

3

Ball Bearing Hinge STANDARD.

4

Hand rubbed stain application on factory stained unit with sprayed clear coat for maximum beauty.

seal-rite FINISHING system * 10 Year Warranty

5

Factory sprayed paint finishes with a durable clear coat available in a variety of standard colors.

seal-rite FINISHING system * 10 Year Warranty

6

Clad Jamb options for maximum protection from the elements.

7

Adjustable Security Strike Plate** wraps around the door jamb and withstands up to three times the force of standard strike plates to help protect your home from forced entry.

* See representative for details on 10 year warranty.

** Not available on certain configurations.

ASK ABOUT ENERGY STAR

AAMA

American Society for Testing and Materials

National Fenestration Rating Council CERTIFIED

Engineered to Work Together

Our complete door systems feature doors, glass and components engineered to work together to resist leaks and drafts, and help maintain energy efficiency and weather resistance.

1. **Sill** and **bottom sweep** form a tight seal against wind-driven moisture infiltration at the bottom of the door system and help channel moisture away from the home. **Sill pan** (recommended) adds an extra layer of protection to help keep moisture away from the subfloor.

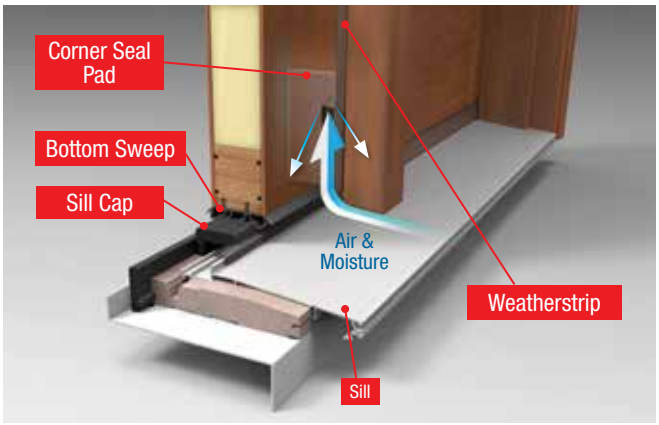
2. **Corner seal pads** (inswing only) complete the seal between the **sill cap**, **bottom sweep** and **weatherstrip** to help block potential pathways where wind-driven moisture can infiltrate the bottom corner of the door system.

3. **Hinges** position the **door** to properly compress the **weatherstrip** to help form a tight, even seal against air and moisture infiltration when the door closes.

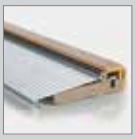
4. **Weatherstrip** is specifically engineered in a variety of profiles to provide the best possible fit with our door systems, helping to deliver a precise seal between the **door** and **frame**.

5. **Multi-point locking system** (recommended) engages the **door** and **frame** at three points from top to bottom, helping to preserve the **weatherstrip's** seal even under wind pressure.

6. **Lip-lite frame** features a **compression seal** against weather on the outside of the **door** and an **adhesive seal** against weather on the outside of the **glass**. **Flush-glazed glass** is built directly into the door without a Lip-lite frame, featuring a **high-performance adhesive weather seal** inside and out.

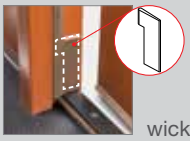


A Complete Door System



Composite Adjustable Sills ✣
Inswing and outswing composite sills resist rotting and insects. Inswing adjustable sills help to maintain a tight seal over time.

Dual-Bulb / Dual-Fin Bottom Sweeps ✣
(Inswing Only) A dual-bulb, dual-fin design helps maintain tight contact with adjustable sill caps and creates added barriers against moisture.



7-Shape Corner Seal Pads ✣
(Inswing Only) Innovative options include our patented jamb assembly, featuring the 7-shape corner seal pad which creates an air pocket that helps prevent a vacuum from wicking moisture up the weatherstrip.

Removable Weatherstrip ✣
Resilient design compresses when closed and springs back when open, protected by a durable jacket, for long-lasting sealing power.

Multi-Point Locking Systems ✣
(Recommended) Increased engagement between door and frame enhances stability and the homeowner's sense of security.
(Highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors.)

Ball-Bearing Hinges ✣
Hinges with ball bearings protecting each hinge pivot, or "knuckle", offer added support and stability.
(Recommended for Classic-Craft® doors and doors with glass.)

Frame Components ✣
Check with your Therma-Tru seller for options to complete the door system, including rot-resistant brickmould, jambs, mullions and coil cladding manufactured to our specifications.

Additional components:
Sill Pans ✣, Rain Protection ✣, Strike Plate and Astragals ✣.

Note: For full details on the Tru-Defense Warranty Rider, visit www.thermatru.com/trudefense. The Rider does not warrant workmanship of anyone who assembles or installs a Tru-Defense door system, nor any damages caused by improper handling, assembly or installation. See your Therma-Tru seller or visit www.thermatru.com for more, including details on ENERGY STAR qualified products.

Fiber-Classic® & Smooth-Star®
Fiberglass Doors

Therma-Tru gives the homeowner options to choose the style that best fits their personality and home without compromise. Fiber-Classic and Smooth-Star share many door styles in common. And the available glass families cross over between door collections. This interchangeability allows the homeowner to make a selection based on what's most important to them – whether it's the door style, texture (grained or smooth), finish (stained or painted) or glass design – with flexibility between lines.

Fiber-Classic & Smooth-Star fiberglass doors offer:

- High-definition panel embossments.
- Composite top and bottom rails.
- 1-¼" engineered lumber lock and hinge stiles.
- 22-½" lock block in Fiber-Classic and 12-½" lock block in Smooth-Star.
- Durable, long-lasting fiberglass skins.

Tru-Defense® Warranty Rider eligible when properly assembled and installed with all Therma-Tru specified system components, in accordance with the Rider.

Fiber-Classic® Mahogany Collection™

- Features deep Mahogany graining to complement homes with richer wood tones.
- Door Sizes: 2'0", 2'4", 2'6", 2'8", 2'10" and 3'0" widths in 6'6", 6'8", 7'0" and 8'0" heights.*
- Sidelite Configurations: 10", 12" and 14" options in select styles; full-, 3/4- and 1/2-lite configurations available.
- Glass Options: a decorative and privacy glass families, as well as specialty, Low-E (☀) and clear glass available.
- Finish Options: Fiber-Classic Mahogany doors can be stained or painted any color.

Low-E
Privacy Rating: **1**

Low-E

More energy efficient than traditional clear glass, Low-E glass is standard on all.

In cold weather, Low-E glass reduces the loss of heat by reflecting the heat back inside the home.

In warm weather, Low-E glass reflects the sun's rays off of the glass, keeping the interior of the home cool.

Glass Privacy Rating Scale

Note: Schlage® is not covered under Therma-Tru's warranty, visit www.schlage.com for more information. Review homeowner care instructions at www.sealritedoor.com/service.
Actual coverage may vary based on product selected, application method and desired appearance. Colors may vary from an actual application due to fluctuations in staining or printing.

Beauty & Durability

One Purchase — A Lifetime of Beauty and Performance

When you purchase a Window World fiberglass door by Therma-Tru® you can feel confident that its beauty will endure the test of time. That's because fiberglass won't rot, warp, twist or bow like wood, or dent or rust like steel. We're experts in what fiberglass can do for any entryway – from appearance, safety, security and durability to energy efficiency. In fact, we are so confident that we stand behind each one with a limited lifetime warranty. That means you can look forward to years of worry-free performance with a properly maintained Therma-Tru® door system from Window World.
